

## HELPING TO MAKE WESTERN ARIZONA HEALTHIER

At Havasu Regional Medical Center, our goal is to deliver the best healthcare available in the Western Arizona region as we seek to make our community healthier. With the help of dedicated physicians, employees, volunteers and board members, along with your continued support and encouragement, we continue our passionate pursuit of excellence.

Delivering quality healthcare close to home is the single most important contribution we make. But there are many other ways we make a positive impact on the communities we serve. Here are a few of the other ways we are making a difference.

### Over \$5.3 million in capital improvements

In 2009, we invested more than 5.3 million in our facility. A linear accelerator was added to the Cancer Treatment Centre. Additional equipment purchases included a digital mammography system, a new C-Arm for the surgical department, and a Vocera Wireless Communication System for the staff. HRMC also implemented HMS Clinical Documentation (EMR). Other enhancements included technology replacement, information technology additions/updates, and routine facility upkeep and maintenance.

Planned service enhancements for 2010 include pulmonary rehabilitation, chemotherapy, bone densitometry, EEGs, electrophysiology and upgrades to our laparoscopic surgical equipment. We also plan to add CRRT (continuous renal replacement therapies) in order to allow our cardiovascular patients to be better cared for here at HRMC.

### Contributing to our local tax base

Last year, Havasu Regional Medical Center paid more than \$1.6 million in taxes that have helped to support our city, county and state. This

included sales taxes as well as property taxes. These dollars help to support local schools, development of roads, recruitment of business and industry, and other needed services.

### Helping those in need

Havasu Regional Medical Center provided over \$196.7 million in uncompensated care last year, which included the amounts not covered by government-sponsored programs such as Medicare and Medicaid. This amount includes more than \$7.1 million for charity care and bad debts, incurred as we cared for many people without sufficient resources.

### Adding new physicians

During the past year, Havasu Regional has added 57 new physicians to our highly respected medical staff, including specialists in emergency medicine, internal medicine, radiology, physical medicine, nephrology, cardiology, pediatrics, pathology, orthopedics, obstetrics and gynecology and pathology.

### One of our community's major employers

With an annual payroll of more than \$41 million and more than 600 employees, Havasu Regional Medical Center is one of the largest employers in the region.

We thank you for choosing us for your healthcare needs. With your support, together we can make an even greater hospital and a healthier community.
